WILO MVIS

Wet Rotor High Pressure Booster Pumps

The WILO MVIS is the only pressure booster pump with maintenance-free wet rotor technology in the world! The MVIS features a maximum noise output of 40db, stainless steel construction for potable water pressure boosting applications, and maintenance-free wet rotor technology that eliminates seals and couplings! Unique? We call it *Pumpen Intelligenz*

WILO MVIS

The Silent Booster!

- 40 db max noise output
- Up to 20db quieter than conventional models
- Three ranges - 15, 30 and 50 nominal USGPM
- Max flow of 70 USGPM
- Heads up to 400'
- Built-in thermal overload sensors

- Corrosion resistant components
- Available in 208/230-460-575 3phase models
- Maintenance-free wet rotor technology eliminates seals and couplings
- 100% stainless steel construction for potable water pressure boosting applications

Look for the UL mark of approval on all of WILO's high pressure booster pumps!
