## Vertical Multistage Centrifugal Pumps

The MVI is the pressure-boosting workhorse of the WILO lineup, and is applicable in a variety of municipal, industrial, process, commercial and HVAC applications ranging from pressure boosting and water supply, to washing systems and boiler feed. Featuring built-in air venting and priming plugs, standard Baldor NEMA frame motors, an extra thrust bearing in the pump end, and an excellent commercial pump warranty, the MVI stays well ahead of the pack. Versatile? We call it *Pumpen Intelligenz*.

WILO MVI

### Pressure Boosting Giant!

- 100% Stainless steel construction
- Flows up to 150 USGPM
- Heads up to 750'
- Standard Baldor NEMA frame motors
- Built-in priming plug
- Built-in air venting plug
- Sleeve O rings eliminate thermal stress leaks
- Excellent commercial pump warranty
  - 24 months from manufacturing
  - 18 months from installation

- Available 115/230V single phase and 208-230/460/575V three phase motors
- Tungsten carbide mechanical seal bearings
- Two flange types (model dependant)
  - 2 Bolt oval - Companion flange threaded NPT
  - ANSI 300lb round flange for larger pumps
- Extra thrust bearing in the pump end
- Can use other motor manufacturers
- Uses standard motor bearings - increases bearing life
